

How to Clean Fabrics

Cleaning HAGA – step by step.

1

Vacuuming (regularly)

Use a soft vacuum cleaner attachment to remove dust and particles. Always vacuum gently to avoid damaging the soft chenille fibers.

Do not use a turbo brush.

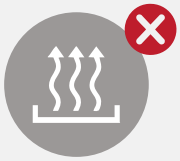
2

Gentle spot cleaning

for fresh stains:

Gently blot fresh stains with a paper towel or soft cloth (do not rub).

Use a damp cloth with lukewarm water and a little mild detergent, then gently wipe the stain in a circular motion.



Allow the cleaned area to dry at room temperature.

Recommended product: **OA Sofa Care**

How to use:
Shake before use. Test the product on a hidden area. Spray the surface from approx. 10–20 cm and leave for about 30 seconds to allow the product to penetrate. Then clean thoroughly using a damp microfiber cloth. Remove the excess with a clean, dry microfiber cloth. Dry the area with a towel and allow it to dry completely.

3

What to avoid when caring for chenille fabric?

RUBBING AND INTENSE SCRUBBING

Chenille may pill or stretch.

ROUGH BRUSHES AND HARD SPONGES

They can mechanically damage the fabric.

OVER-WETTING THE FABRIC

It may cause deformation or water marks.

STRONG DETERGENTS AND BLEACH

Avoid solvents or chemicals not intended for upholstery.

VACUUMING WITHOUT A SOFT ATTACHMENT

When caring for and cleaning stains, use only a soft, gentle tip – touch, do not scrub.

DRYING ON A RADIATOR OR WITH HOT AIR

It may damage the fibers and discolor the fabric.

4

Protection and Refreshing

Fragrance refreshing and care
OA Aroma Cherry

Use special products for upholstery fabrics – they neutralize odors and have a refreshing effect.

For cleaning, we recommend
OA Sofa Care

A gentle yet effective product for removing stains from furniture fabrics. Safe for the fabric structure, restores freshness and aesthetics without risk of damage.

To protect the fabric from further stains, use
OA Sofa Protector

Creates an invisible protective layer that prevents liquids from being absorbed and makes future cleaning easier.

REMEMBER

Conscious use means a longer product life and preserved aesthetics.
