How to Clean Fabrics

Cleaning
eco-leather fabrics
and metallized materials
– step by step.

1

Everyday cleaning.

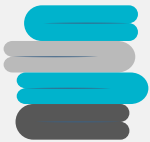

Wipe the surface with a soft, damp cloth (preferably microfiber) and clean water. Regular wiping removes dust and fine dirt before it penetrates deeper. Use a soft-bristled vacuum cleaner attachment.

Do not use a turbo brush.

2

Gentle spot cleaning

for fresh stains:

Remove fresh stains immediately with a soft cloth.

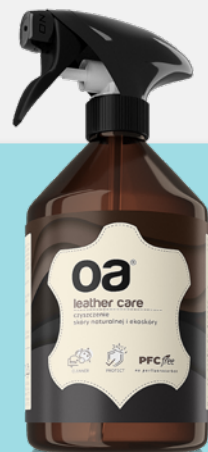

For heavier stains, use a mild cleaner designed for leather-like fabrics (e.g., **OA Leather Care**).

Apply the cleaner to a cloth (not directly to the fabric!) and gently clean the surface.

OA Leather Care is an ideal choice

How to use:

Apply the product to a cloth and then clean the surface. Remove any remaining product with a microfiber cloth. Repeat if necessary. Do not allow the product to dry while cleaning. Before use, test on a small area of the material in an inconspicuous area.

3

What to avoid when caring for eco-leather fabrics and metalized materials?

INTENSIVE SCRUBBING

May damage the fabric structure.

ROUGH BRUSHES AND HARD SPONGES

They can mechanically damage the fabric.

PROLONGED CONTACT WITH WATER

This may lead to cracking or deformation of the material.

STRONG DETERGENTS AND BLEACH

Avoid solvents or chemicals not intended for upholstery.

HOT AIR DRYING

Drying in the sun or at high temperatures (e.g., on a radiator).

4

Protection and Refreshing

Fragrance refreshing and care **OA Aroma Cherry**

Use special products for upholstery fabrics – they neutralize odors and have a refreshing effect.

For cleaning, we recommend **OA Leather Care**

A gentle yet effective product for removing stains from furniture fabrics. Safe for the fabric structure, restores freshness and aesthetics without risk of damage.

To protect the fabric from further stains, use **OA Leather Lotion**

It creates an invisible protective layer that prevents liquids from being absorbed and makes future cleaning easier.

Conscious use means a longer product life and preserved aesthetics.
